DANSK CENTER FOR STRATEGISK FORSKNING I TYPE 2 DIABETES

DECLARATION OF CONSENT

Date

Date

Signature of local project employee

Signature of project manager, DD2center

DD2 - Danish center for strategic research in type 2 diabetes

Approved by the Science Ethics Committee for the Region of Southern Denmark journal no. S-20100082.

I hereby confirm, with my signature, that I have received the DD2 project's participant information, both in writing and orally, and that I wish to participate in the described project: "DD2 - Danish center for strategic research in type 2 diabetes". I am informed that participation is voluntary and that I can withdraw my commitment to participate at any time and without cause without affecting my current or future treatment. This also applies even though I have given my written consent that I will participate.

I agree that the blood and urine samples are taken for storage in a research biobank, and that the samples, once authorized, can be used for research into the heredity of type 2 diabetes and the associated diseases associated with it for the purpose of disease understanding and development of new forms of treatment and prevention. Furthermore, I can at any time ask to have my data, blood and urine samples destroyed and my data removed from the DD2 project. ☐ Yes In connection with the examination, I would like to be informed about my resting heart rate and hip and waist circumference. □Yes □ No Name: Address: Date trial participants signature Below is filled by DD2 project staff It is hereby certified that the written participant information has been handed out and that the patient is familiar with the leaflet, "Before you decide", and that the oral information has taken place.
